PROFILE

B.E Computer Science graduate with hands-on AI/ML experience, including leading annotation quality for 2 Computer Vision POC projects and a live AI/CV production project. Built 4 end-to-end ML/NLP projects, including a fine-tuned LLM-powered RAG chatbot (LangChain, HuggingFace, Llama 3.3 70B) and multiple predictive ML models across NLP and classification tasks. Balanced full-time night-shift work with full-time degree and certification, reflecting strong discipline and time management. Seeking an AI/ML Intern role to apply hands-on model fine-tuning, LLM integration, and data analysis skills to real-world projects.

SKILLS

Python | SQL | Pandas | NumPy | Machine Learning | Deep Learning | NLP | LLM | RAG | FAISS | HuggingFace | PyTorch | Scikit-learn | LangChain | Data Analysis | Streamlit | Git/GitHub

PROJECTS

Swiggy Restaurant Recommendation System
Key Skills: Python, Pandas, Machine Learning, Streamlit
- Built a personalized restaurant recommendation system using One-Hot Encoding and K-Means/Cosine Similarity; **processed** 20,000 restaurant records and optimized to a top-10 city subset to balance model performance with computational efficiency
- Deployed an interactive Streamlit dashboard on **Streamlit Cloud**, delivering real-time recommendations in **under 2 seconds**
- Identified and resolved high-dimensionality issues from One-Hot Encoding on large categorical data by strategic feature scoping, improving training speed without accuracy loss

IMDb Movie Recommendation System (NLP)
Key Skills: Python, Selenium, NLP, TF-IDF, Cosine Similarity
- Built a movie recommendation system by scraping and analyzing **300+ IMDb 2024 movies** using Selenium
- Applied TF-IDF vectorization and Cosine Similarity to recommend movies based on storyline similarity, achieving **relevant matches for 85%+ of test queries**
- Developed and deployed an interactive **Streamlit Cloud** app, returning top-5 similar movie recommendations in **real-time (<2s response)**

NutriClass: Food Classification Using Nutritional Data
Key Skills: Python, Scikit-learn, Machine Learning
- Built a multi-class food classification system using **Logistic Regression, Random Forest, SVM, XGBoost, and KNN** to predict food categories from nutritional attributes
- Performed end-to-end preprocessing, feature engineering, and evaluation using **Accuracy, Precision, Recall, and F1-score**

Data-Driven Stock Analysis Dashboard
Key Skills: Python, Pandas, SQL, Power BI, Streamlit
- Developed a dashboard to analyze **Nifty 50** stock performance, covering volatility, cumulative returns, sector-wise trends, and stock correlations
- Automated data pipelines converting YAML-based stock datasets into structured CSV/SQL formats for real-time insights on top gainers/losers and market trends

Client Query Management System
Key Skills: Python, MySQL, Pandas, Streamlit
- Developed a Client Query Management System with secure login authentication, query tracking, and status management for real-time client support
- Built an interactive **Streamlit dashboard** for support teams to monitor, filter, and close queries efficiently
- Analyzed query trends and resolution performance using **SQL queries and datetime-based tracking**

EDUCATION

IIT-M Advanced Programming Professional & Master Data Science 07/2025 – 02/2026
GUVI, IIT Madras Research Park Chennai,Tamil Nadu

Bachelor in Computer Science Engineering 06/2021 – 05/2025
Annaporana Engineering College Salem,Tamil Nadu

Diploma in mechanical engineering 06/2018 – 04/2020
Mahendra Polytechnic College Namakal,Tamil Nadu

PROFESSIONAL EXPERIENCE

Junior Team Leader - Operation 02/2021 – 07/2026
MahendraNext Wealth IT India Pvt Ltd (Night Shift, concurrent with full-time education) Namakal,Tamil Nadu

- Delivered 2 successful Computer Vision POC projects and managed annotation quality for 1 live AI/CV production project, ensuring dataset accuracy for model training pipelines
- Coordinated cross-shift workflows and quality checks for ML training data annotation, supporting model accuracy and dataset readiness for AI/ML pipelines
